

vCamMX Mini System

The versatile vCamMX mini inspection camera system is a compact all-in-one inspection camera at an affordable price. Available in two lengths of pushrod and with two sizes of user changable cameras the system can inspect lines from 1-3/4 to 4"/45 to 100mm. The vCamMX mini camera has all the features of the larger pushrod camera systems such as locatable sonde, traceable pushrod, distance counter, internal rechargeable batteries and built-in microphone for voice over. The vCamMX can be purchased as a complete all-in-one unit with the control module mounted to the reel or purchase the reel separately to use with the vCam-5 control module.

- 1 year warranty covers entire system.
- A Camera exchange program is available for out of warranty camera heads.
